COMMISSION

RE: In the Matter of: Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity for the Construction of Alternative Transmission Facilities in Jefferson, Bullitt, Meade and Hardin Counties, Kentucky
Case No. 2005-00472

Dear Ms. O'Donnell:

Please take notice that, pursuant to KRS 278.020 and 807 KAR 5:120, Louisville Gas and Electric Company and Kentucky Utilities Company plan to file, on or after December 21, 2005, an application for a certificate of public convenience and necessity for the construction of an alternative 345 kV transmission line in portions of Jefferson, Bullitt, Meade and Hardin Counties in Kentucky. Specifically, that proposed line will run from the Mill Creek Generating Station in Jefferson County to the Hardin County Substation in Hardin County.

Please note that this proposed line is *not* identical to the line proposed in the Companies' Notice of Intent that was filed with the Commission on November 18, 2005¹. This proposed line follows a different proposed route between the Mill Creek and Hardin County substations. The route happens to span the same four counties. Thus, the Companies are filing a separate, alternative Application.

Please assign this matter a case number and style (unique from that assigned in the November 18, 2005 matter) and advise us of the same so that it can be incorporated into the application and supporting testimony before it is filed with the Commission.

¹ In the Matter of: Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity for the Construction of Transmission Facilities in Jefferson, Bullitt, Meade and Hardin Counties, Kentucky, Case No. 2005-_____
